Call for Papers

2025 Information Management Symposium
July 28 - 30, 2025
49th Symposium
World Golf Village Renaissance St.
Augustine Resort
St. Augustine, Florida

The NIRMA Symposium team invites you to participate as a speaker in the technical program for the 49th Information Management Symposium. If you would like to take advantage of this opportunity, please submit a 100-150 word abstract of the presentation you wish to present. Abstracts must be submitted by April 18, 2025, via email to Kathi Cole, NIRMA Vice President.

Email: kjccole1@yahoo.com

Phone: 702-423-7025

Selection of presentations will be based on the description provided in the abstract. Notification of acceptance will be made in late May 2025.

If your abstract is accepted, you will be required to submit a publication-ready electronic version of your presentation no later than July 18, 2025 (PowerPoint preferred).

Presentations should focus on topics and issues associated with the business environment that supports nuclear and other highly regulated industries such as waste management, power generation, government programs, and process safety management. Technical presentations, workshops, and panel discussions will be considered. Sessions may be a single-hour or a series of progressive / multi-part presentations.

In 2025, we are again interested in learning about Case Studies by individuals within our community who can address either success or failure stories on various work-related projects performed at your jobsite. We also want to continue with Emerging Technologies topics, Soft Skills, 'Back to Basics' for Document Control, Records Management, General Management, Safety, and Legal topics to assist in training our veteran and newer staff members.

Of particular interest are presentations on: (Covered Topics)

- 3D Models & Records
- Applications of Robotics & Process Automation
- Artificial Intelligence current usage in nuclear energy
- Benchmarking for Digital/Electronic Signatures
- Benchmarking for NSSS/AE providers
- Benchmarking on Records Management software
