

Celebrate 50 Years of Excellence with NIRMA!

Join us for this milestone event by sharing your expertise at the 50th Anniversary Nuclear Information and Records Management Association Symposium. We're seeking presentations that deliver real-world experiences, practical insights, and innovative solutions for nuclear and other highly regulated industries.

What We're Looking For:

We want sessions that go beyond theory—bring us case studies, lessons learned, and stories of innovation in action! Topics of interest include:

- **Case Studies:** Successes and failures—how projects were implemented, what worked, and what didn't.
- **RIM Impact:** How effective records and information management drives business value, compliance, and operational excellence.
- **Digital Transformation:** Implementation of digital twins, advanced analytics, and intelligent automation in nuclear operations.
- **AI & Machine Learning:** Use cases for predictive maintenance, safety monitoring, document processing, and knowledge management.
- **Conversion Projects:** Migrating from paper to digital, integrating legacy systems, and overcoming challenges in large-scale data conversion.
- **Stakeholder Engagement & Change Management:** Case studies on successful project rollouts, workforce training, and user adoption.
- **Collaboration & Knowledge Transfer:** Best practices for cross-functional teamwork, knowledge retention, and succession planning.
- **Industry Benchmarking:** Sharing metrics, KPIs, and lessons learned from utility and vendor partnerships.
- **International Perspectives:** Global approaches to nuclear information management, including standards

Session Formats:

Technical presentations, workshops, and panel discussions. Sessions may be single-hour or multi-part series.

How to Submit:

Send a 100–150 word abstract by **April 17, 2026** to Stephanie Price, NIRMA Vice President (sjprice@southernco.com, 205-902-4874). Include:

- Your name, title, organization, contact info, and session title
- Names, bios, and a headshot for all speakers
- Session format and total time needed (minimum 45 minutes)
- Session objectives, goals, target audience

Requirements:

- Session title must match abstract title
- No overt selling of products/services
- Accepted presenters must submit a publication-ready presentation by July 18, 2026 (PowerPoint preferred)
- Presentations must reflect the accepted abstract

Selection & Notification:

Presentations will be selected based on abstract quality. Notification of acceptance will be made in late May 2026.
